

**Sainik School Gopalganj**  
**Class XII**  
**Computer Science**  
**Project Work**

Today's age cannot be even thought of without Internet, even in dreams. Although Internet has made many things easier but at the same time it has posed many security risks too, if not used in a proper way. Thus, it is important to know about possible threats, challenges and risks of working on internet to ensure personal safety and information security.

Write a Project Report on the Topic **Cyber Safety and Security**. The Report should encompass Cyber Safety, appropriate uses of Social Networks, safely accessing Websites and Communication Data, various threats to Computer Security and its solution.
